Insurance Educational Association Announces Fall 2011 Curriculum

June 2011

Orange, CA – The Insurance Educational Association (IEA), a highly industry respected provider of insurance related courses has released its fall 2011 programs for enrollment. Courses begin August 2011.

In today's tough job market, it's more important than ever to be at the top of your game. IEA programs enable insurance professionals to succeed by providing the tools necessary for advancement. By enrolling in an IEA program, participants are availing themselves of training conducted by well known industry respected instructors. Students can choose from three methods of learning – online self study, online instructor led, or live classroom setting.

IEA is also offering the following programs:

Workers' Compensation Claims Administration (WCCA & WCCP), Certified Professional in Disability Management (CPDM), Certified Case Management Professional (CCMP), Associate in Risk Management (ARM), Chartered Property Casualty Underwriter (CPCU), Associate in General Insurance (AINS) and much more.

“IEA knows that our students want quality courses, quality instructors and relevant training to enhance their careers. You can trust IEA to deliver top notch professional, technical and management education through the best instructors and authors. And all of our courses and seminars will be relevant to your career – whether in a classroom, online instructor led or online self study,” said Roy Little, President and CEO of IEA.

For additional information please contact Insurance Educational Association offices at 714.689.0090 or email at gary@ieatraining.com.

About IEA: Insurance Educational Association (IEA) IEA is the leading not-for-profit provider of online self-study, online instructor led, and classroom educational services for the insurance, risk management and disability management industry. Founded in 1876, IEA's more than 200 instructors interact with over 5,000 students a year. IEA's broad range of products and services helps students build business, technical and managerial skills.
