

## **Nevada WCCA Certificate Program**

The program was developed by the IEA for workers' compensation specialists employed by insurance companies, self insured organizations, third party administrators, and others who can benefit from a comprehensive course of study on workers' compensation procedures and practices.

### **NV 10 : Workers' Compensation Claims**

This course will provide the student with a comprehensive overview of Nevada workers' compensation statutes and regulations, as well as claims handling procedures. Students will learn:

- Introduction to the history and philosophy of Nevada workers' compensation
- Treatments and case management
- Compensation benefits
- The appeals process
- Vocational rehabilitation requirements

### **NV 11 : Medical Terminology & Applications**

This course will focus on the industrial aspects of injuries and discusses those most commonly associated with workers' compensation claims. Medical specialists will present relevant data assisting students in correct interpretations of medical reports on the industrially injured worker. Emphasis will be placed on medical terminology.

### **NV 12 : Workers' Compensation Claims Advanced**

This course will provide the student with a comprehensive study of Nevada workers' compensation statutes and regulations. Students will learn:

- Determinations
- Claims management/ case management
- Investigation, surveillance and fraud
- Reserving and regulatory claim audits
- Hearings and PPD ratings
